Subject: Follow up from SASMC
Date: Tuesday, June 12, 2012 5:03:46 PM

As follow-up from the Special Accounts Senior Management Committee meeting on Tuesday, June 5th, I wanted to inform you that the regions did not raise further concerns with the recertification of funds made available from special account reclassifications on the national special accounts call on Wednesday, June 6th now that the recertification database is open.

We did ask regions to let us and OB know if they do encounter any issues in using the database to request recertification of reclassified funds.

James Woolford, Director
Office of Superfund Remediation and Technology Innovation (OSRTI)
Office of Solid Waste and Emergency Response (OSWER)
